groundworks^{AT LEE JOFA}

The Kelly Wearstler collection boldly illustrates her trademark attention to detail, sensitivity to color and texture and multicultural and historical reference points. Inspired by her intercontinental travels and a penchant for studying and collecting both vintage decorative arts and pedigreed antiquities, the line is at once timeless and fresh.

The collection consists of over 150 skus, including fifteen printed and woven fabrics and nine trimmings in a range of unique color combinations – a signature element of Kelly's style.
